

# CM777-25665

## M.2 NVMe/SATA SSD Enclosure

### Features

#### Superfast Speed

This M.2 enclosure provides transport speeds of up to 20Gbps as an NVMe enclosure and 6Gbps with SATA protocols

#### Secure & Stable Transmission

Support UASP and Trim, built-in advanced RTL9220 chip with short-circuit and over-current protection, which achieves the safety and stability of the data transmission

#### Multiple Heat Dissipation

Aluminum housing combined with a high thermal conductivity silicone plate ensures efficient heat dissipation

Compatible with NVMe/SATA SSD

Plug and Play

**\*Input:** 1x USB-C female: Meets the USB Type C 3.2 association standard and supports USB 3.2 GEN 2x2 20Gbp transfer speeds

**\*Output:** 1x M-Key socket

**\*Supported SSD Types:** SATA/NVMe protocol M. 2 SSD

**\*Supported SSD Sizes:** 2230/2242/2260/2280

**\*Supported SSD Capacity:** Theoretically supporting up to 8TB

**\*Driver Installation:** Driver-Free Usage

**\*Supported Systems:** Windows/Linux/macOS
